HOW DO I ACCESS CSP?

Families can self refer by contacting Pathways directly at 519-542-3471; or families can be referred by any CSP partner agency in the community. Our community CSP partners will complete a screening scale with the family to determine their level of support from CSP, and the results will be forwarded to Pathways.

Coordinated Service Planning

SARNIA-LAMBTON

A FAMILY-CENTRED APPROACH

WHAT IS COORDINATED SERVICE PLANNING

Coordinated Service Planning (CSP) is a family-centred approach to coordinating multi-sector services for families of children and youth with multiple and/or complex special needs.

CSP will support these families in three ways:

1) To access coordinated service planning for a range of services across sectors;
2) To have a Coordinated Service Planner to bring together service providers working with the identified child or youth; and
3) To develop one Coordinated Service Plan for each child/youth that illustrates the family and child/youth's goals, strengths and needs, as well as all of the services that the child/youth is and will be receiving.

HOW DOES CSP HELP FAMILIES?

- Families have a clear point of contact (their Coordinated Service Planner)
- Families do not have to repeat their stories and goals to multiple providers
- Families have a single Coordinated Service Plan that is responsive to their child/youth's goals, strengths, and needs
- Families experience a family-centred process that recognizes that each family is unique; that the family is the constant in the child/youth's life; and that they have expertise on their child/youth's abilities and needs
- Families know that providers will be communicating about the needs and goals of their child/youth and will be working toward a set of common goals identified in the plan.

CSP GOAL

The goal of CSP in our community is to build on the coordination and collaboration we already experience in Sarnia-Lambton, to improve the service experience for all families of children and youth with multiple and/or complex special needs, to connect them to the various services they require as early as possible, and to monitor their needs and progress through a Coordinated Service Plan.
