

WHILE YOU ARE WAITING FOR AN ACS ASSESSMENT

Click coloured block for link to resources

The links below have been reviewed by Pathways Health Centre for Children staff, however we are not responsible for the content of the links provided. Links are provided to assist families in learning as much as they can while they wait for their assessment and beyond. Many thanks to the various organizations we have linked to.

These links do not replace the advice of doctors and therapists. Always consult with your therapist if you have questions or concerns.

AAC e-Learning modules

Directions: Scroll down, and select modules #1 & #3. Keep in mind that these modules were created by another Children's Centre, so modules #2 and #4 are more specific to that Centre and do not apply to Pathways Health Centre for Children.

Aided language stimulation explained

In other words how children learn to use the augmentative communication support.

No Tech Video

Video showing how a no-tech paper board can be modeled.

Core Vocabulary Modules
